

School of Humanities

Event Proposal

Title of the Event: Digital Humanities and Tech Integration: A Capacity Development Training Program

Organized By: School of Humanities (SOHS)

Event Coordinators:

- Dr. Manju Rani
 - Ms. Muskan Sethi
-

Proposed Date and Duration

Date: 27th January 2025

Duration: 1-2 hour

Mode of Event

Offline

Target Audience

Faculty and Students of the School of Humanities (SOHS), K.R. Mangalam University

Nature of Event

Expert Session

Sustainable Development Goals (SDGs) Addressed

- **SDG 4:** Quality Education
 - **SDG 8:** Decent Work and Economic Growth
 - **SDG 9:** Industry, Innovation, and Infrastructure
 - **SDG 10:** Reduced Inequalities
-

Objectives

1. To introduce participants to the intersection of digital technologies and humanities disciplines.
 2. To equip participants with the knowledge and skills to leverage digital tools and technologies for research, analysis, and dissemination in humanities.
 3. To encourage collaboration and interdisciplinary exchange among participants working in humanities and related fields.
-

Methodology

- Hands-on Workshops
 - Project-Based Learning
-

Expected Outcomes

1. Participants will gain a comprehensive understanding of digital humanities and its applications in academic and cultural contexts.
 2. Participants will acquire practical skills in using digital tools and technologies relevant to humanities research and analysis.
-

Evaluation Method

- Project-Based Learning Assessments
- Feedback from Participants

Tools and Processes Incorporated to Determine Outcomes

- Practical Exercises and Projects
- Participant Feedback

Course Mapping

SOHS-SEC-001

Significance and Impact

This program aligns with the Sustainable Development Goals by:

1. Enhancing educational practices through digital integration, improving teaching and learning methods (SDG 4).
2. Increasing employability by developing digital skills and opening new career pathways (SDG 8).
3. Promoting innovative research methodologies using advanced digital technologies (SDG 9).
4. Encouraging inclusivity and reducing disparities in research capabilities through access to digital tools (SDG 10).

Conclusion

The *Digital Humanities and Tech Integration* program fosters technological adaptability among faculty and students, empowering them to harness digital tools for research, teaching, and interdisciplinary collaboration. This initiative will significantly contribute to skill-building and academic growth in the field of humanities.
