School of Medical & Allied Science

**Mr. Debashish Paramanick**  
Assistant Professor  
School of Medical & Allied Science

---

Dear Readers,

Greetings from the School of Medical & Allied Sciences,

It gives me immense pleasure to present this edition of the newsletter of the School of Medical & Allied Sciences, K.R. Mangalam University. This newsletter reflects the collective efforts, achievements, and academic spirit of our faculty members, students, and staff, who continuously strive for excellence in education, research, and healthcare practice.

At SMAS, we remain committed to nurturing competent healthcare professionals equipped with strong ethical values, scientific knowledge, and practical skills. The activities and accomplishments highlighted in this issue showcase our dedication to academic innovation, interdisciplinary learning, community engagement, and experiential education.

This edition captures glimpses of academic events, workshops, seminars, research initiatives, student accomplishments, and outreach programs that exemplify our vibrant learning environment. Each contribution stands as a testament to teamwork, curiosity, and the pursuit of professional growth.

I extend my sincere appreciation to all contributors for their valuable inputs and enthusiasm in making this newsletter meaningful. I hope readers find this issue informative, inspiring, and reflective of our shared vision for excellence in medical and allied health sciences.

Wishing you an enriching and rewarding reading experience.

## WORDS FROM THE LEADERSHIP

Greetings,

It is with great pride and pleasure that I share this message for the newsletter of the School of Medical & Allied Sciences, K.R. Mangalam University. This publication serves as a meaningful platform to showcase the academic vitality, achievements, and progressive initiatives undertaken by our school.

In today's rapidly evolving healthcare landscape, the role of medical and allied health professionals has become more critical than ever. At SMAS, we are committed to fostering a learner-centric environment that emphasizes academic excellence, clinical competence, research orientation, and ethical responsibility. Our curriculum, teaching methodologies, and experiential learning opportunities are carefully designed to prepare students to meet global healthcare challenges with confidence and compassion.

The accomplishments and activities featured in this edition reflect the dedication of our faculty, the enthusiasm of our students, and the collaborative spirit that defines our institution. From academic events and research contributions to community outreach and professional development programs, each milestone reinforces our mission to create skilled, responsible, and socially conscious healthcare professionals.

I extend my sincere appreciation to the editorial team, faculty members, and students for their efforts in bringing out this newsletter. I am confident that this publication will inspire continued growth, innovation, and excellence within our academic community.

I wish all our readers a stimulating and enriching experience.

**Dr. Hema Chaudhary**

Professor & Dean

## FROM THE DESK OF IQAC COORDINATOR

It gives me great pleasure to extend my warm greetings to the readers of this newsletter. At K.R. Mangalam University, we remain committed to fostering a culture of academic excellence, innovation, and continuous improvement. The Internal Quality Assurance Cell (IQAC) plays a vital role in ensuring that quality benchmarks are maintained across all academic and administrative processes within the university.

Our objective is to promote a dynamic learning environment that encourages creativity, critical thinking, and research-oriented education. Through various quality initiatives, academic programs, workshops, and collaborative activities, we strive to enhance the overall educational experience of our students and empower them to become competent professionals and responsible global citizens.

The achievements and activities highlighted in this newsletter reflect the collective efforts of our faculty members, students, and staff who continuously contribute to strengthening the academic ecosystem of the university. Their dedication and enthusiasm are instrumental in maintaining the standards of excellence that define our institution.

I congratulate all contributors for their valuable efforts and encourage everyone to continue participating actively in initiatives that promote quality enhancement and institutional growth. Together, let us continue to uphold the vision and mission of K.R. Mangalam University while striving for greater accomplishments in the years ahead.

With best wishes,

**Dr Shikha Dutt Sharma,**

IQAC Coordinator

K.R. Mangalam University

# ABOUT SCHOOL : VISION AND MISSION

## ABOUT SCHOOL

Welcome to the School of Medical and Allied Sciences, where your journey towards a rewarding career in healthcare begins!

The School of Medical and Allied Sciences (SMAS) is committed to delivering comprehensive education and training across a spectrum of healthcare disciplines. SMAS offers Diploma, Undergraduate, Postgraduate and Doctoral programmes in different fields of medical & allied sciences. With our esteemed faculty, cutting-edge facilities, and immersive learning opportunities, we are instrumental in nurturing the future generation of healthcare practitioners. Our focus is on empowering students with the requisite knowledge, skills, and ethical principles to deliver top-tier care and drive progress in global healthcare standards.

## VISION

To contribute towards healthcare needs of society by producing a skilled, motivated and accessible workforce dedicated towards achieving health for all.

## MISSION

- To produce self-motivated, self-reliant and socially sensitive young healthcare professionals catering to the needs of academia, industry and research.
- To create a centre of excellence for learning and research in the field of pharmaceutical and allied health sciences with inter- disciplinary approach in emerging area of science and technology with focus on industry-academia interaction.
- To nurture transformational research for the benefit of society.
- To interlink pharmaceutical and allied health sciences with interdisciplinary life sciences.

## MEMBER OF ADVISORY COMMITTEE

---

**Prof. B. Suresh**

Pro-Chancellor

JSS Academy of Higher Education & Research  
& Ex-President of Pharmacy Council of India

**Dr. Jayapala Reddy**

Vice President & Head

Emerging Markets of MSN Labs, Hyderabad

**Prof. Vandana B. Patravale**

Professor, Department of Pharmaceutical Sciences &  
Technology,

Institute of Chemical Technology (ICT), Mumbai

Dear Readers,

We extend our sincere gratitude to all participants, speakers, and organizers for their invaluable contributions to our recent academic and research initiatives. Your enthusiasm and commitment to learning continue to inspire innovation and excellence in the field of medical and allied sciences.

At the School of Medical & Allied Sciences (SMAS), K.R. Mangalam University, we remain dedicated to fostering knowledge-sharing platforms that empower students, researchers, and professionals. We encourage you to stay engaged, explore new opportunities, and collaborate for a brighter future in scientific research and healthcare advancements.

Thank you for being a part of our academic journey. We look forward to your continued participation and support in our upcoming events.

Best Regards,  
Advisory Committee  
School of Medical & Allied Sciences (SMAS)  
K.R. Mangalam University

# CURRENT NEWS IN PHARMACEUTICALS

## MINISTRY OF HEALTH AND FAMILY WELFARE NOTIFIES COSMETICS (AMENDMENT) RULES, 2025

The Ministry of Health and Family Welfare (Department of Health and Family Welfare) (MoH&FW), vide notification G.S.R. 513(E) dated July 29, 2025, has notified the Cosmetics (Amendment) Rules, 2025 (Cosmetics Amendment Rules). The Cosmetics Amendment Rules define “use before” as the date preceding the first day of the mentioned month, while “date of expiry” refers to the last day of that month. Terminology changes include replacing “Controlling Ocer” with “Controlling Authority” and updating the definition of “Government Analyst”. Licensees are required to maintain records of manufactured batches and raw materials for three years or six months after batch expiry, whichever is later, in hard copy or electronic format. The rules also outline procedures for licence cancellation or suspension by State Licensing Authorities, with a provision for appeal to the State Government within 90 (ninety) days.

## AMENDMENT TO THE UNIFORM CODE FOR PHARMACEUTICAL MARKETING PRACTICE

The, MoC&F, through DoP, vide Circular No. 3 of 2025 dated September 1, 2025, has notified amendments to the Uniform Code for Pharmaceutical Marketing Practices, 2024 (UCPMP). These amendments introduce clarifications to valuation methodology and revise disclosure obligations applicable to pharmaceutical companies.

1. Manufacturer-supplied free samples distributed to healthcare professionals shall be valued on a per-unit basis using stockiest prices.
2. Purchased samples shall be valued at actual purchase price.
3. Annual averaging is mandatory for identical product variants.
4. Companies may now submit marketing expenditure returns to any member industry association.
5. Technical corrections have substituted outdated references in relevant clauses.

## ANMAT OPENS PUBLIC CONSULTATION ON ICH E20 GUIDELINE FOR ADAPTIVE CLINICAL TRIALS

The National Administration of Drugs, Food and Medical Technology (ANMAT) has opened a public consultation on the draft ICH E20 Guideline titled "Adaptive Designs for Clinical Trials." This international guideline, currently in Stage 3 of the ICH process, provides comprehensive principles for the planning, conduct, analysis, and interpretation of confirmatory clinical trials that incorporate adaptive design elements. These designs allow for pre-specified modifications based on interim data, aiming to confirm treatment efficacy and support benefit-risk assessments.

The guideline promotes global harmonization, facilitating multiregional trials and accelerating the development of safe and effective treatments. ANMAT invites laboratories, contract research organizations, researchers, and ethics committees to submit comments by October 8, 2025, via email to [relaciones.internacionales@anmat.gob.ar](mailto:relaciones.internacionales@anmat.gob.ar). The draft document and submission template are available on the official ICH website. This initiative reflects ANMAT's commitment to modernizing clinical research practices and fostering international collaboration.

## TGA PUBLISHES JULY 2025 SAFETY UPDATES TO PRODUCT INFORMATION

On July 24, 2025, the TGA released new safety-related updates to Product Information (PI) for several medicines, including alprostadil, armodafinil, avelumab, baclofen, buprenorphine, and others. Changes include new warnings, contraindications, and adverse effects—such as fetal harm, cytokine release syndrome, and metabolic acidosis. Healthcare professionals are advised to review these updates to ensure appropriate prescribing and patient counseling.

## PHARMACEUTICALS ROUNDUP 2025

It's been a turbulent year for the pharmaceutical industry, with US political decisions having broad ramifications both at home and abroad. Donald Trump's on-again off-again tariff announcements have made for a challenging market environment, and his desire for 'Most Favoured Nation' pricing has left companies scrambling to do deals on price cuts in the US, and ramp up their US-based operations. At time of publication, proposed tariffs of up to 100% have

been delayed to give pharma companies more time to cut their prices. Pfizer was the first company to say it would start selling medicines directly to patients via a government online platform, [trumprx.com](http://trumprx.com), that is expected to go fully live in January. Several other companies have also said they would start selling at least some of their medicines directly to patients, including Amgen, AstraZeneca, Bristol Myers Squibb (BMS), Lilly, Novartis and Novo Nordisk.

Leaders of companies including Eli Lilly (David Ricks, back row second from left) and Novo Nordisk (Mike Doušdar, at lectern) have scrambled to cut deals with the Trump administration to protect their products from trade tariffs

## BLOCKBUSTER PRODUCTS

Merck & Co's immunotherapy blockbuster Keytruda (pembrolizumab) remains at the top of the best-seller list, with global sales of \$29.5 million in 2024, ahead of Pfizer-BMS's anticlotting agent Eliquis (apixaban). Abbvie's anti-TNF antibody Humira (adalimumab) plummeted from second to 14th on the list after biosimilar competition kicked in. And

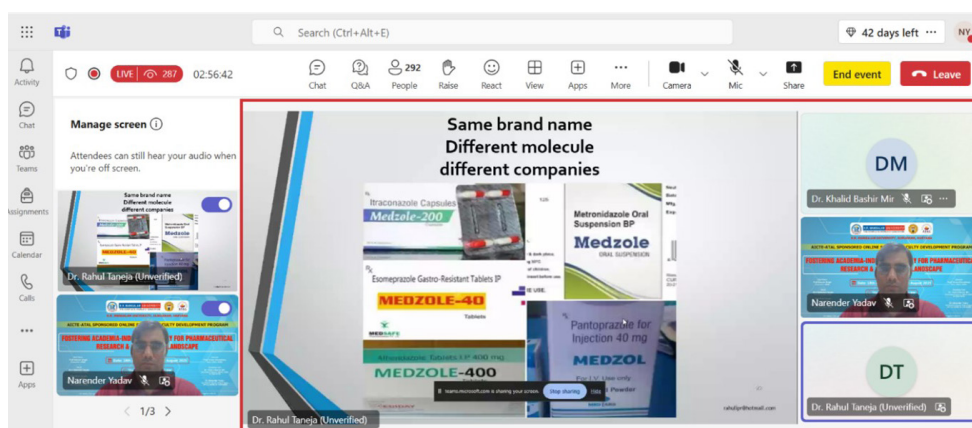

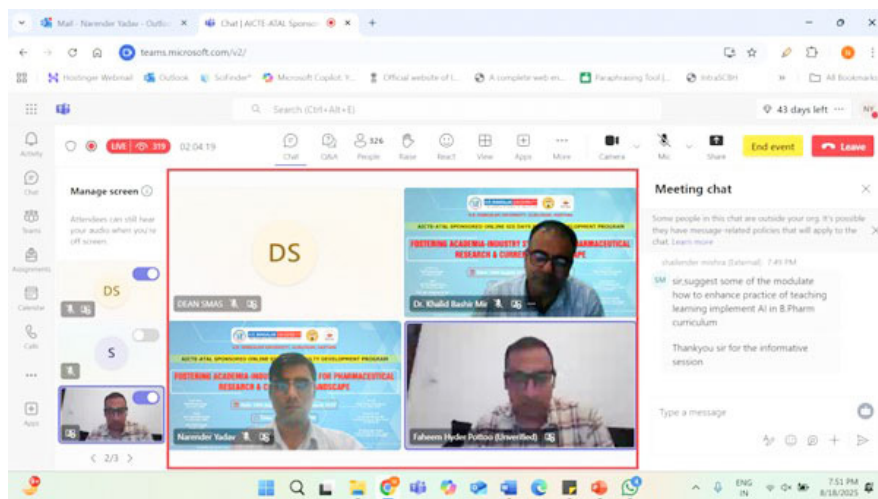

now in third place is Novo Nordisk's GLP-1 agonist diabetes treatment Ozempic (semaglutide), although adding in sales of semaglutide branded as Wegovy for weight-loss would push the drug into second. Such has been the impact of the GLP-1 agonists, both in treating type 2 diabetes and assisting weight loss, that the WHO has added four of them to its list of essential medicines.

Diabetes and weight loss treatments mimicking metabolic hormones have had huge influence on the pharmaceutical industry landscape, with many companies looking to acquire prospective drugs and enter a lucrative market

# EVENTS CORNER

## FDP ON IP-DRIVEN PHARMA INNOVATION

## FDP ON IP-DRIVEN PHARMA INNOVATION

The School of Medical & Allied Sciences, K.R. Mangalam University, Gurugram, Haryana, successfully organized a six-day Faculty Development Programme (FDP) from 18th to 23rd August 2025 on the theme “IP-Driven Pharma Innovation”, with the title “Fostering Academia-Industry Synergy for Pharmaceutical Research & Current IPR Landscape”. The programme was sponsored by the AICTE Training and Learning (ATAL) Academy Cell. The FDP aimed to enhance awareness and understanding of intellectual property rights (IPR) and to strengthen collaboration between academia and the pharmaceutical industry. Eminent academicians, industry professionals, and IPR experts delivered insightful sessions on pharmaceutical research trends, patent filing, technology transfer, regulatory frameworks, and commercialization of research outcomes.

Participants gained practical knowledge on various aspects

of IPR, including patents, trademarks, copyrights, and prior art search. Real-life case studies highlighted successful industry-academia collaborations and demonstrated how IP-driven research can be transformed into innovative and market-ready pharmaceutical products. The programme featured interactive lectures, panel discussions, and hands-on sessions that encouraged active participation and meaningful discussions. These sessions helped faculty members understand the challenges and opportunities in translating academic research into industrial applications while maintaining ethical and regulatory standards. Overall, the FDP proved to be a valuable platform for capacity building, fostering innovation, and promoting sustainable academia-industry partnerships. It significantly contributed to enhancing faculty competence in IPR and reinforced the importance of intellectual property in driving pharmaceutical research and innovation.

## FOSTERING EXCELLENCE TOGETHER: AN ORIENTATION ON QUALITY PRACTICES FOR CURRICULUM DELIVERY

The School of Medical and Allied Sciences (SMAS), in collaboration with the Internal Quality Assurance Cell (IQAC), organized an expert talk titled “Fostering Excellence Together: An Orientation on Quality Practices for Curriculum Delivery” on 12th September 2025 at Room No. A-213, Aryabhata Block. The session focused on enhancing awareness of quality standards in teaching and learning in today’s rapidly evolving academic environment. The programme was attended by 48 participants, including students of B. Pharm (III Semester) and faculty members of SMAS. For students at this stage of their academic journey, the orientation was especially significant as they transition into specialized subjects requiring deeper engagement,

critical thinking, and professional responsibility. Faculty members, on the other hand, play a crucial role in shaping student learning through innovative pedagogy, student-centric approaches, and fair evaluation practices. The session featured an insightful expert talk by Prof. (Dr.) Tania Gupta, Director, IQAC, K.R. Mangalam University, followed by interactive discussions. The two-way engagement allowed faculty to share classroom challenges while students expressed their learning expectations, making the discussion practical and solution-oriented. By the end of the session, participants gained a clearer understanding of institutional quality benchmarks and the importance of continuous improvement in education.

## ACADEMIC VISIT – “A PRACTICAL EXPLORATION OF HERBAL HEALING AT JAMIA HAMDARD'S CENTRE OF EXCELLENCE IN UNANI MEDICINE”

The School of Medical & Allied Sciences (SMAS), K.R. Mangalam University, organized an enriching academic visit to the Centre of Excellence in Unani Medicine, Jamia Hamdard, on 26th September 2025. The visit was convened by Prof. (Dr.) Hema Chaudhary, Dean, SMAS, and coordinated by Dr. Swati Kaushik and Dr. Parakh Basist. It was organized under SDG 4.3, focusing on technical and vocational education and training. The visit aimed to provide M. Pharm students with practical exposure to the integration of traditional Unani medicine and modern pharmaceutical research. It offered valuable insights into natural product research, herbal drug validation, and interdisciplinary learning approaches. The programme began with an orientation session, followed by guided tours of advanced research laboratories. Students participated in interactive sessions and live demonstrations of sophisticated analytical

instruments such as GC-MS, HPTLC, and HPLC. They also gained hands-on exposure to zebrafish models, cell culture techniques, and phytochemical analysis, which are integral to contemporary pharmacological and biochemical research. Through expert-led discussions, students explored how traditional knowledge systems like Unani medicine are being scientifically validated and integrated into modern healthcare practices. The visit significantly enhanced students' understanding of experimental research, data interpretation, and natural product-based drug discovery. Overall, the academic visit proved to be a valuable experiential learning opportunity, strengthening students' research orientation and appreciation of interdisciplinary innovation. The exposure aligned seamlessly with SMAS's vision of fostering holistic, research-driven, and future-ready pharmaceutical education.

## CAPACITY DEVELOPMENT PROGRAM TITLED EMERGING TECHNOLOGY TRENDS AND THEIR IMPACT ON MODERN HEALTHCARE EDUCATION

The School of Medical and Allied Sciences, K.R. Mangalam University organized a Capacity Development Program titled “Emerging Technology Trends and Their Impact on Modern Healthcare Education” from 16th to 22nd September 2025 at A Block Multipurpose Hall, B-413 and B-414. The program was conducted in offline mode and targeted students of B.Pharm 7th Semester, D.Pharm 2nd Year, and B.Sc. (Hons.) CVT, EMT & RT. A total of 144 participants attended the program. The event was coordinated by Ms. Manisha Singh and Ms. Sanjana Bhat under the guidance of Dr. Hema Chaudhary, Dean, School of Medical and Allied Sciences.

The primary objective of the program was to familiarize students with emerging technological advancements and their impact on modern healthcare education. It aimed to strengthen professional knowledge, develop practical skills, and promote interdisciplinary learning through expert sessions, demonstrations, and interactive discussions. The program also aligned with Sustainable Development Goals

(SDG 3: Good Health and Well-Being) and SDG 4: Quality Education, emphasizing improved healthcare practices and innovative learning methods.

# DEEKSHARAMBH 2025

The inaugural day of Deeksharambh 2025, the student induction program, was conducted with great enthusiasm and academic spirit. The event aimed to warmly welcome the newly admitted students and familiarize them with the university's academic environment, culture, and values. The program commenced with a formal inauguration, including the lighting of the ceremonial lamp and a welcome address by the university dignitaries. The speakers highlighted the importance of discipline, dedication, and holistic development in shaping a successful professional journey. Students were encouraged to actively participate in academic and co-curricular activities to make the most

of their university life. An insightful orientation session was conducted to introduce students to various departments, faculty members, and available facilities. Key information regarding curriculum structure, examination patterns, and institutional policies was shared to help students adapt smoothly to their new academic setting. The day also featured motivational talks by experienced faculty members, who inspired students to set clear goals and pursue excellence with perseverance. Interactive sessions allowed students to engage, ask questions, and express their expectations, fostering a sense of belonging and confidence.

Students are actively participates in different activity

# OUR ALUMNI

**HARSH RAJPUT**  
Batch: 2021-25  
B. Pharmacy

As a proud alumnus of this esteemed institution, I look back with immense gratitude for the experiences that shaped my academic and personal journey. My time at the university was not only about gaining knowledge but also about being part of a dynamic environment that encouraged curiosity, collaboration, and continuous growth.

The guidance and support of dedicated faculty members, along with the strong bonds formed with peers, played a vital role in shaping my perspective and aspirations. The university provided countless opportunities to learn, explore new ideas, and develop the confidence needed to step into the professional world.

Today, as I reflect on those formative years, I feel honoured to be associated with an institution that continues to nurture talent and inspire excellence. The values, discipline, and spirit of innovation instilled during my time here remain an integral part of my journey.

To the current students, I encourage you to make the most of every opportunity that comes your way. Embrace challenges, remain curious, and actively participate in all aspects of campus life. These experiences will not only enrich your academic journey but also prepare you for the future.

To my fellow alumni, let us stay connected and continue to support our alma mater. By strengthening our network and contributing in meaningful ways, we can help inspire and guide the next generation of students toward success.

**MANINDER SINGH**  
Batch: 2021-25  
B. Pharmacy

Being an alumnus of this institution is a matter of great pride for me. The years I spent here were truly transformative, providing not only academic knowledge but also life lessons that continue to influence my personal and professional journey.

The supportive environment created by the faculty and the collaborative spirit among students made learning both enriching and enjoyable. The university encouraged us to think critically, explore new ideas, and develop the confidence to pursue our ambitions. These experiences have played a significant role in shaping who I am today.

Looking back, I deeply appreciate the opportunities, guidance, and encouragement I received during my time here. The values of dedication, integrity, and perseverance that the institution instilled in us remain with me and continue to guide my decisions and actions.

To the current students, I encourage you to take full advantage of the resources and opportunities available to you. Stay curious, remain determined, and make the most of every learning experience. Each moment spent here will contribute to building a strong foundation for your future.

To my fellow alumni, let us remain connected and continue to support our alma mater. By sharing our experiences and staying engaged, we can help strengthen the community and inspire the next generation to achieve their dreams.
